Fill the Gaps – Editorial Comment, News and Views

Dear Collector,

Welcome to our latest auction catalogue - Fill the Gaps 27.

It has been a busy couple of months since the last auction, but we managed a few days away to recharge the batteries. It only rained on one of the days, so maybe we will have a bumper summer this year.

We also had a trip to Spalding Stamp Club to give a display. This was the second time I had displayed to Spalding – the first time being 11 years ago. I am always happy to display my Antarctic collection at your club – just ask 😊.

We have had several questions recently around reserves and prices and such like, so I thought it would make sense to summarise things for everyone:

- The reserve is the price at which bidding starts for each lot. Bids below reserve are rejected by the computer system ('Computer Says No').
- Bids that do not conform to the published bidding steps are rounded down to the next correct step.
- Reserves are generally set at about 25% of the Gibbons catalogue price, except for GB where the percentage varies from 10% to 25%.
- Where the reserve is outside the above, we try to show the catalogue value in the description.

Look out in this catalogue for our new “BARGAIN BIN” (Lots 1 to 51) where the reserves are low compared to catalogue value.

And finally, the football season starts again soon, and we have the Qatar world cup to look forward to (or not depending upon your view). QPR have a new manager, that no one has ever heard of, and he is busy signing new players no one has ever heard of either. We are doomed!

As always if you have any questions or comments, feel free to call, write or email.

Remain Healthy and Positive and Best Wishes to you and yours

Best Regards
